### Action Withheld On Tax Proposal By Water Co.

The tax and delinquent tax committee of the Madison county board of supervisors took no action on a proposal to settle an old tax bill owed by the East St. Louis & Interurban Water Co. during a meeting Friday at the courthouse in Edwardsville.

The utility had proposed to settle a total of \$17,034 listed as delinquent taxes for the years 1958, and 1962 at 20% of the amount, claiming that it was over-assessed for the two years.

Though taxing bodies in other Madison county townships served by the water company previously agreed to the settlement, the Granite City council-town board refused to do so at a recent meeting.

Gilbert Killinger, chairman of the county board's tax committee, said it was a policy of the committee to withhold recommendations to the county board in such cases until all taxing bodies in the district concerned are in agreement.

He suggested that city officials resume negotiations with the utility to settle the account.

In 1958, the company received a tax bill of \$52,076, paid \$39,057 and withheld \$13,019 for its Granite City operation, and in 1962, it was billed \$64,819, paid \$60,803 and withheld \$4,016.

The utility argues that the county board of review had made adjustments in its assessments in other years and that settlements of tax claims have been reached with three other townships involved on the 20% basis.

### Man Is Beaten After Argument at Party

Charles W. Blackburn, 33, Clayton, Mo., was admitted to St. Elizabeth Hospital early Friday, unconscious and suffering contusions and lacerations about the face and head. He was taken there by Madison police after he was beaten by a man who said Blackburn had fired a teargas gun at him, officers reported.

Police were called to the 1900 block of Rhodes street at 2:35 a.m. Friday and found Blackburn on the ground beside his car. They said Wayne Shierling, a soldier stationed at the Granite City Army Depot, told them that he and Blackburn were at a party when they became involved in an argument.

Shierling was quoted as saying that Blackburn "pointed an object" at him and fired. Blackburn allegedly fired a second time and ran out of the apartment. Shierling said he chased Blackburn and overtook him as he reached his car. He told officers he struck Blackburn about the face.

No charges were filed. Blackburn was treated at the hospital for lacerations to his chin and nose, above the right eye and on the lower lip, and for a hematoma to the forehead. Twenty-two sutures were taken.

## RIDC Campaign For Members to Open Tomorrow

Approximately 285 firms throughout the metropolitan area involved in some form of transportation services will be contacted in the Regional Industrial Development Corporation membership drive being launched Tuesday.

The announcement was made by Missouri Transportation Division Chairman Roy E. Rhoades, plant manager Ford Motor Co. assembly plant, and Illinois Transportation Division Co-Chairman Arnold Cassen, president, Cassens Transport, Hamel, and Wil Edmonds, traffic manager, Granite City Steel Co.

Cassen and Edmonds, aided by nine solicitors, will contact transportation-connected firms in the three-county area in the Illinois portion of the bi-state region serviced by RIDC.

The campaign opening tomorrow is the first organized membership drive to be initiated by RIDC.

Dr. Delvyn Morris, newly-elected RIDC board chairman and president of Southern Illinois University, has commented, "The demand for RIDC's services, especially from out-of-town firms seeking information about our region, has grown at such a tremendous rate during the past three years that we must expand our staff. This necessitates a greater budget. As a non-profit corporation, RIDC depends on membership support as its sole source of income."

## Huckla-Litwicks Nuptials Friday in Old Cathedral

Of interest locally was the wedding Friday evening at the Basilica of St. Louis, King of France (Old Cathedral) in St. Louis, of Miss Theresa Marie Litwicki, a daughter of Mr. and Mrs. Stephen J. Litwicki, of St. Louis, and Philip J. Huckla, whose parents are Mr. and Mrs. Frank J. Huckla, 860 Bend road.

Mrs. James Hofflicka officiated at 7 o'clock in the evening before the altar adorned with arrangements of white flowers and greenery.

The bride wore a full length beaded satin gown with a train-length veil. She carried a bouquet of red and white roses.

Miss Barbara Ann Litwicki, maid of honor, and Mrs. Patrick Reynolds, bridesmaid, both

sisters of the bride, were dressed in full length ruby red gowns with a matching combination of flowers in their bouquets.

David L. Huckla was best man for his brother, and Robert J. Hughes was groomsmen. Marion Krakowicki, of St. Louis, formerly of East St. Louis, served as usher.

A reception was held at the Midtown Holiday Inn in St. Louis, and the bride and groom left later for a honeymoon in New Orleans. When they return they will live in St. Louis.

The bride, a registered nurse, was graduated from Jewish Hospital School of Nursing. She is presently employed at Incarnate Word Hospital in St. Louis.

Mr. Huckla received a master degree in management sciences from St. Louis University where he became a member of Delta Sigma Pi. He is a registered representative of the New York Stock Exchange and is employed by Francis I. Dupont in St. Louis.

MRS. PHILIP J. HUCKLA, a bride of Friday. Before her wedding in the Basilica of St. Louis, King of France (Old Cathedral) in St. Louis, she was Theresa Marie Litwicki, a daughter of Mr. and Mrs. Stephen J. Litwicki of St. Louis.

MRS. FEALIE HAMELBACK, a bride of Saturday. The former Candace Yodis, a daughter of Mr. and Mrs. Joseph Yodis, 2204 Orville avenue, she was married at Our Lady of Loretto Catholic Church in Spanish Lake, Mo.

## Hamelback-Yodis Vows Are Heard in Missouri

Miss Candace Dorothy Yodis and Fealie V. Hamelback exchanged wedding vows Saturday morning at Our Lady of Loretto Catholic Church in Spanish Lake, Mo.

The bride is a daughter of Mr. and Mrs. Joseph Yodis, 2204 Orville avenue. Mr. Hamelback's parents reside at 1415 Widenfelds lane, St. Louis.

Greenery and two large bouquets of mums and white pans tied with pale blue decorated the altar for the 11 o'clock Mass. Rev. Richard Backus officiated at the double-ring ceremony. White satin bows with blue centers marked the family pews.

A program of wedding music was furnished by Mrs. Judy Klosterman from Our Lady of Loretto, St. Louis. She played the organ and sang "Lord Who at Cana's Wedding Feast," "Psalm 121" (Wedding Psalm) and "O Perfect Love."

The bride, escorted down the aisle by her father, wore a gown of Chantilly lace over imported peau de soie. The Empire design included a small silk band flowing into Chantilly lace, forming scalloped neckline and long fitted sleeves ending in points. A detachable chapel-length Watteau train, secured at the shoulders, was accented by a bow.

The headpiece was a layered white rose petal centered at the crown, and there was a clear-length veil of pure silk illusion.

She carried a teardrop bouquet of white carnations, lilies of the valley, stephanotis and greenery. Her father placed a lucky penny in her shoe prior to the ceremony.

Miss Mona Moran of Granite City served as maid of honor. Miss Sharon Yodis served as bridesmaid for her sister.

Both attendants were attired in floor-length gowns of Caribbean blue velvet, with scoop necklines. Bands of tiny blue flowers in contrasting lighter shades of blue accented the waistlines, and a bow streamer in the back descended into each "A" line skirt. The long fitted sleeves ended in points to match the bride's gown.

Light blue headpieces of roses were accented with crystals, securing soft bouffant veils.

The attendants carried teardrop bouquets of white carnations tinted in pale blue with green foliage and flowing blue streamers.

John Pender of St. Louis served as best man. Greg Nikolych of St. Louis was groomsmen, and Richard Kryder of St. Louis was the usher.

For her daughter's wedding, Mrs. Yodis wore a medium gold two-piece suit with brown accessories and a white carnation corsage.

The bridegroom's mother, Mrs. Hamelback, was in a pale blue two-piece suit with three-quarter-length coat, black accessories and a white carnation corsage.

A wedding dinner was given in the home of the groom's parents immediately following the wedding.

A reception for friends and members of the family took place later in the day at the John Doherty Memorial Hall, 625 Baden avenue, St. Louis.

Following a honeymoon to an undisclosed destination, the newlyweds will make their home at 1386 North Garden lane, St. Louis.

The bridegroom was entertained with a bachelor's party Nov. 13 in St. Louis.

The former Miss Yodis, a June 1968 graduate of Granite City high school, is employed at a St. Louis bank.

Mr. Hamelback, a 1966 graduate of Hazelwood high school, is employed in layout work in St. Louis.

# Maxvill to Address 1968 Park Sports Banquet

Dal Maxvill, shortstop for the National League champion St. Louis Cardinals baseball team and a former Granite Cityan, will be the main speaker at the ninth annual Sports Awards Banquet of the Granite City park district at 6:15 p.m. next Monday, Nov. 25, at the Granite City high school cafeteria.  
Also on hand will be Ken Gray and Larry Wilson of the football Cardinals. Gray is the offensive right guard and Wilson is one of the National Football League's top defensive backs.  
It has been the custom of the park district to hold the banquet once a year and award all of its team trophies—for tennis, flag football, basketball, softball and baseball.

**AWARDS**  
A total of 106 awards will be presented, consisting of 38 baseball trophies, 29 softball, nine basketball, 10 flag football and 16 tennis trophies, plus four special awards.

Any tickets left over will be sold to the public at \$2.25 each, the same price charged to the boys and managers.

**In Three World Series**  
Maxvill, a native Granite Cityan who has been in organized baseball since 1960, sparked the Cardinals to the 1964 and 1967 world championships as well as helping capture their third season title in five years this season.  
He and other Cardinals currently are concluding a baseball tour of Japan.  
He tied for 20th place among all National Leaguers in batting for the 1968 Most Valuable Player award, won by one of his teammates for the second year in a row and the third time in five seasons.

## MORE ABOUT Dr. Lee to Run

Madison and Venice will not be required to compete in a primary election, the amended law requires an early filing period for all mayoralty candidates, some time in December, since there is no way of determining how many candidates there will be until petitions are filed.

**Seeks Another Term**  
The law provides that if there are more than two candidates for mayor in any community, a primary election shall be held to nominate two mayoralty candidates who then will run in the general city election in a runoff with all aldermanic candidates and candidates for city clerk and city treasurer.

Dr. Lee announced merely that "I intend to seek another term in office." Lee, with Mayor Maerz, heads the Madison-Venice political organization.

The mayoralty primary requirement therefore promises to initiate an early campaign period since the candidates for top posts on the city tickets will have to declare themselves well in advance of earlier campaign periods when mayoralty candidates did not have to file until February. Alignment of city dates consequently will be advanced into mid-December for one of the earliest city election projections in political history.

In Granite City Clyde Boyd, a city alderman for nearly six years, has announced his candidacy for the mayor's spot and incumbent Mayor Donald Parney has said he will make his plans known probably this week. Paul Rutledge, also a long-time alderman, announced earlier that he will be a candidate for mayor in event that Parney does not seek re-election.

**Townships To Elect**  
In addition to the election of city officials in area municipalities next year, voters also are scheduled to elect township, park district commissioners and school board members in balloting next April. Township supervisors and town auditors are to be elected in Granite City, Venice, Nameoki and Chouteau townships.

School board members will be elected in Granite City Dis-

trict 9, Venice District 3 and Madison District 12. The Granite City and the Venice park districts will elect commissioners.

Due to uncertainty over the filing dates that has developed due to the necessity of the mayoralty primary, city officials are looking into the legal requirements and expect to be able to fix definite filing, withdrawal and primary dates within the next few days.

Dr. Lee is 48 and lives at 1230 Klein street, Venice. He is a dentist with offices at 4014 Madison avenue, is married and has three children. He attended St. Mark's parochial school in Venice, St. Louis University high school and St. Louis University where he obtained his B.S. degree and St. Louis University for his D.D.S.

**Is Bank Chairman**  
He is president of the First National Bank in Madison, belongs to the County, State and American Dental Associations, St. Mark's Holy Name Society, Knights of Columbus, Crippled Children's Organization of Venice, Homecoming Association, the Lions Club and the American Legion.

Rich was elected city treasurer of Granite City in 1965 while serving under appointment. He is 38 and lives at 3310 Wabash avenue.

He is a member of the Presbyterian Church and has served as elder and trustee. Rich is past exalted ruler of the Elks Lodge, past master of Masonic Lodge 835 and holds the Legion of Honor award, the highest honor that can be conferred by the Order of DeMolay.

He is past president of the Lions Club, member of the Moose lodge, past president of the Alumni Association of the Granite City high school and a past board member of the Chamber of Commerce.

Pendleton, 37, lives at 2421 State street, is married and has a stepson and five grandchildren. Before his election as city clerk he was a Granite City township assistant supervisor and was employed as a switchman for the Terminal Railroad Association.

He attended local schools and St. Louis University. As a township official, he served four terms for a total of 16 years in the office.

## MORE ABOUT State to Try

mothers living east of McCambridge avenue for specific traffic controls to protect children going to and from school, Kronst said he did not consider the pedestrian problem very critical.

But, he said, the growing traffic volume, the practice of northbound traffic making left turns into Second street as cars come down the north side of the viaduct and the angular merger of traffic at Edwardsville road "is a really dangerous problem and one we must do something about."

At the same time Kronst said he also will look into the pedestrian problem and that he had assigned a staff of six persons this morning to make a week-long traffic study for the full extent of the stretch of highway.

"As far as the safety of the children and other pedestrians is concerned, I can't see much of a problem there," Kronst said. "When I visited the area Friday it was a bad day. It was raining and visibility was poor, but McCambridge avenue is a straight stretch of highway with full vision in both directions."

**Children at Fault**  
"The big problem, as I see it, is that children haven't had the training they need at home and at school about traffic safety. I saw a number of children cutting across the street at random and in the middle of the block. It is impossible to put a traffic signal at every intersection."

"It seems that parents turn their children loose and have the idea that the minute their youngsters leave the house they are the responsibility of the city, the state, the county and the educators. Children should be taught they have some responsibility for their own safety."

Kronst said that he thought the left turn from McCambridge into Second streets by cars still coming down the incline of the viaduct "is an extremely dangerous" practice. The left turn at Edwardsville road also is a critical spot, he said.

A traffic count also is to be made along the highway.

## Paris Symphony Flutist Visits In-Laws Here

Michel DeBost of Paris, France, a flutist with the Paris Symphony Orchestra now on tour in the United States, was a guest Friday at a luncheon given by the family of his wife, the former Kathy Chastain of Mitchell.

DeBost flew from New York to Mitchell to visit his wife's family and to attend the luncheon given in the home of Mrs. Ray Peters, 209 Paradise Lane, who is Mrs. DeBost's sister.

Attending the family gathering were Mr. and Mrs. Everett Chastain, parents of Mrs. DeBost, who formerly lived in Mitchell but who moved to Carlinville.

Other members of the family present were Everett Chastain jr. and children, Christina and Mark; Mrs. Harold Chastain; Mrs. Evelyn Johnson and son,

Kronst said and this, combined with the pedestrian study, will enable him to make recommendations to the city of Madison for any further traffic controls that should be initiated.

**City to Pay Cost**  
Mayor Maerz has indicated that the city of Madison is willing to pick up the tab on anything that needs to be done.

"I think the city is bending over backwards to resolve the problems, particularly since much of the area along McCambridge is not in the city and its residents pay no taxes."

Maerz sought aid from the highway department following the injury of two children who were hit by cars as they crossed McCambridge avenue at Third street.

A group of mothers have said they will picket the intersection until corrective steps are taken. Two mothers picketed the area Friday and two were on hand this morning.

Madison Police Chief Emmett Piaz has assigned two regular police to the intersection from 8 to 9 a.m. and from 3 to 4 p.m. daily when children are on their way to or from school.

## County's CD to Offer 12-Week Training Course

A 12-week course in "Civil Defense Management," taught by instructors from the University of Illinois, will be sponsored by the Madison County Civil Defense organization at the county CD training center, 300 South Main street, Edwardsville, starting Dec. 4. It was announced today by Theodore Dorroff of Granite City, county CD director.

Classes will be conducted one evening per week for the three-month period, with each session starting at 7:30 p.m. and lasting three hours, Dorroff said.

The course, offered by the Illinois Civil Defense Agency and Illinois University, is designed to provide civil defense personnel at all levels with instruction and discussion of up-to-date information necessary in the efficient operation of a civil defense organization, the county officer said.

In addition, an effort is made throughout the course to establish the interrelationship of various subjects to provide a base for consolidation of the total civil defense function, Dorroff explained.

"It is recommended that such

people enroll in the course as "The Shelter-Centered Civil defense directors, volunteer, full-time or part-time; secretarial staffs in all CD offices and voluntary staff members; all designated or potential chiefs of services (local state or area); heads of local governing bodies and boards; city managers; persons teaching or planning to teach courses in shelter management or radiological monitoring; and anyone who now has, or may have in the event of an emergency, a civil defense assignment," Dorroff said.

Instruction covers such topics as "The Shelter-Centered Civil defense Program," "Weapons Effects," "Requirements and Responsibilities for Local Civil Defense," "Protection Against Weapons Effects," "Organizing and Staffing for Emergencies," "The Community Radiological Defense System," "Warning and Communications," "Emergency Operations," "The Community Shelter Program," "Shelter Planning," "Training and Education for Civil Defense," "Informing the Public," "Program Development and Management," "Financial and Other Support Assistance," and "Emergency Preparedness."

To insure a place in the Civil Defense management class, pre-registration can be made by writing Madison County Civil Defense, 300 South Main street, Edwardsville, or calling, 686-7057.

**Bronze Star Medal Winner, S/Sgt. John W. Dowdy**, husband of Mrs. Linda Dowdy, 2312 Clark avenue, receives congratulations from Maj. Gen. Barstona during presentation ceremonies last month near the De-Militarized Zone. The local paratrooper won the award for heroism in ground combat against the enemy.

## Bronze Star Medal for S/Sgt. John Dowdy

"Disregarding his own personal safety, Staff Sergeant Dowdy moved from position to position through intense ground fire. His unhesitating actions resulted in numerous enemy dead and hastened the termination of the attack."

This reads part of the citation accompanying the Bronze Star Medal and "V" Device presented Oct. 23 to S/Sgt. John W. Dowdy of Granite City. A paratrooper with the famed 101st Air Cavalry Division, the soldier was serving as artillery liaison sergeant with the Third Battalion, 107th Infantry, when the battalion command post was hit with a ground and mortar attack by an estimated North Vietnamese battalion near Phuoc Vinh, Vietnam, last spring.

S/Sgt. Dowdy is expected home from Vietnam about Dec. 1. He is the husband of Mrs. Linda Dowdy, 2312 Clark avenue, and father of John W. Jr. (J. J.), who is celebrating his fourth birthday today. The serviceman's parents, Mr. and Mrs. William Harrison Dowdy, reside at 4180 Breckenridge lane.

Enlisted in 1963, a life-long resident of Granite City, S/Sgt. Dowdy attended Granite City high school before enlisting in the Army in June 1963. In September 1966, he was enlisted for a further three-year tour, and was sent to Vietnam last December.

In addition to the Bronze Star Medal, the paratrooper also holds the Combat Infantryman's Badge; four Army Commendation Medals; four Air Medals; two Good Conduct Medals; Vietnamese Campaign Ribbon with three stars; Vietnamese Service Medal, and Senior Jump Wings.

Whenever possible, Sgt. Dowdy prints short messages to his family, enclosing the brief notes in letters to his wife. "J. J. can recognize most of the words his daddy writes and knows that he is coming home very soon," Mrs. Dowdy said.

Several weeks ago, a package arrived for the youngster, containing a pin-sized military jacket decorated with a large map of Vietnam across the back and written on it the words, "My Daddy is in Vietnam." "He is very proud of the jacket and plans to wear it when his Daddy arrives home," the mother said.

S/Sgt. Dowdy is expected to remain on leave about 30 days, reporting then to Fort Bragg, N. C. The serviceman spent a brief R & R furlough in Hawaii in June and was visited there by his wife.

## Birdwatchers Can Invite 'Yule Mail Call' Listing Grows and Grows

### Birds in Winter Months

In winter smart birdwatchers invite the birds to come to them, says the Illinois Audubon Society. They will respond if proper hospitality is extended.

Simple, easy to make food tables continuously supplied with well chosen tidbits of bird diet will insure a surprising number and variety of feathered guests in all but the most congested urban areas. The worse the weather, the heavier the snow, the more birds will appear to gladden the dreariest winter days.

Think of birds on Thanksgiving Day, especially if the ground is already snow-covered, while we in our warm homes enjoy the holiday feast—and for the next four cold months."

Raymond Mostek, Illinois Audubon Society president, said today.

It takes a little know-how to be successful hosts to winter birds, Mostek said, pointing out that kinds of food birds need and like, how to correctly set their dining tables, and how to provide shelter from storms.

"Shelter is as essential as food," he said.

I.A.S. Education Division vice-president, Peter Dring, has available a booklet "Food and Shelter for Birds" which will be sent for fifteen cents in coins to pay postage and handling to anyone who writes to: "Food and Shelter," Illinois Audubon Society, P.O. Box 94, Downers Grove, Ill. 60015

Today's edition of "Yule Mail Call" includes the addresses of a Granite City paratrooper who sustained severe foot wounds when he stepped on an enemy anti-personnel mine in Vietnam, on April 3 and remains confined at a military hospital in Colorado; two brothers—one stationed in Korea and the other serving in Vietnam; and a Venice high school graduate who gave up his deferment as a minister to volunteer for training as a helicopter pilot.

Individuals and clubs are invited to clip-out the names and addresses of Quad-City servicemen appearing in each issue of the Press-Record, adding the names to their Christmas mailing lists.

Through the Yule Mail Call project, it is hoped that readers will send cards, letters or gifts to the Armed Forces members, thereby helping to lighten their spirits while away from home and loved ones during the coming holiday season.

Addresses of local servicemen still are being accepted for inclusion in Yule Mail Call. Those submitting a serviceman or woman's name are asked to write the details on a card, letter or slip of paper and mail or bring the information to the Press-Record office, 1815 Delaware Avenue.

Still under treatment at Fitz-Simmons Army Hospital in Denver, Colo., is Specialist Four Danny L. King, 21, a son of Mr. and Mrs. Robert King, 1924 Johnson road, who was seriously wounded by an enemy anti-personnel mine last spring near Bong Son, Vietnam.

An Army paratrooper, SP/4 King was serving in Vietnam with the 173rd Airborne Regiment of the 503rd Infantry Division, the same unit in which three Granite Cityans were killed 12 months ago this week, while taking H 875 at Dak To.

The serviceman was graduated from Granite City high school in 1965, and attended Southern Illinois University-Southern and Alton campuses before entering the Army in November 1966. He received jump training at Fort Benning, Ga., and Fort Bragg, N.C., prior to assignment in Vietnam last Oct. 3.

Currently training as a helicopter pilot at Fort Worth, Texas, is Warrant Officer Cadet William E. Barritt, son of Mr. and Mrs. Frank Barritt, 209 West 2nd street, Venice, and husband of the former Miss Gail Morris of Tullahoma.

WOC Barritt was graduated in 1964 from Venice high school and entered the military immediately upon graduation. He pastored a church in Manchester, Tenn., for 18 months and served as an evangelist in various parts of Mississippi.

As a minister the serviceman held a permanent deferment, exempting him from all military service. "But he felt he should do his part, so he joined the Army in September of this year and hopes to become a helicopter pilot," his mother writes.

As a high school age youth, WOC Barritt sang with the "Barritt Trio" at church and other functions throughout the Quad-Cities.

Two brothers presently serving overseas are Specialist Four James W. Kelley, who is with the 573rd Engineers in Vietnam, and Private First Class Vernon A. Kelley, stationed in Korea with the Second Infantry Division.

They are sons of Mr. and Mrs. James Kelley, 121 Big Four place, Mitchell.

Another local youth who will be away from home this Christmas is Private Gene R. Cain, son of Mrs. Robert Cain, 2533 Hemlock avenue.

The soldier recently was assigned to a cryptographic equipment school at Fort Monmouth, N.J., where he is expected to remain at least ten months. "Gene will enjoy receiving any cards and letters," according to his mother.

## Press-Record's ... Yule Mail Call (Clip and Save)

Quad-City servicemen and women stationed around the world, whose names and addresses are being published in each issue of the Press-Record as a special pre-Christmas public service. It is suggested that readers clip-out and retain the lists as they appear. ## Will Recommend City Adoption Of Growth Plan

The new long-range development program prepared as a guideline for future growth of Granite City and its immediate environs was accepted officially Thursday afternoon by the City Planning Commission.

William F. Hoelscher, commission chairman, said that as a result of the action the commission will recommend to the city council in its regular meeting tonight that it adopt the program to give it legal status.

Only brief discussion preceded the commission's approval action. David Morgan and E. G.

Schmidt, commission members, emphasized that the program represents only a guideline for future development which the city and does not commit any of the city's public agencies to conform completely with any of the suggested development projects set out in the plan.

Other Agencies Approved Hoelscher said he had received notice of approval of the project from all of the city's agencies except the Granite City park district. Plan Commissioner Barry Lomax, who also is a park commissioner, told the group that he knew of no objections to the plan by the park district and that he would see to it that the park board expresses its opinion in a letter to Hoelscher.

The program, covering a 20-year plan of future development in Granite City and the area one and one-half miles outside the city's present limits, was prepared by the Southwestern Illinois Metropolitan Area Planning Commission in a two-year study of population projections, housing needs, land use and other factors necessary to comprehensive planning.

A public hearing on the plan was held Oct. 16. No objections were filed at that time, and its acceptance by the Plan Commission had been anticipated.

To File With County If the city council gives the program its official sanction as the city's development guideline, the program will be filed with the county. Under state law such procedure will give the program a legal status that would require the county to take into account the recommendations of the program in any development project the county might undertake in the area extending one and one-half miles outside the city limits.

SIMAP staff members also have prepared a new zoning ordinance and a new subdivision land ordinance in conjunction with the development program. A public hearing on the ordinances will be arranged after the council approves the development plan, Hoelscher said.

In its only other business in regular session Thursday afternoon, the commission approved a request by Leo Wolf for subdivision of a tract of land adjoining One and Pontoon Plaza Two developments to permit construction of an additional 20-unit apartment to be known as Pontoon Plaza Three.

## 2 Venice Boys Caught Stripping Stolen Car

Two 16-year-old Venice boys were captured by Venice police about 10:30 p.m. Thursday when officers surprised the boys stripping a car in an alley at the rear of 628 Mercedia street. A third boy was being sought.

Authorities said they received a report that a car was being stripped in the alley and when they arrived near the scene the officers split up and entered the alley from each end. One of the youths fled to Mercedia street where he ran into another Venice officer, then ran back to the car where he was picked up.

The car, stolen from Henry Harvey, St. Louis, on Nov. 16, had been stripped of all four wheels, police reported. Two of the wheels and tires were found in the alley a short distance from where the car had been jacked up. The other two were found by the auto.

Police said juvenile cards were filed on both youngsters and a hearing is to be held in Edwardsville.

Madison patrolman Theodore Skoklo, 46, and Richard Buckingham, 21, of Cloverleaf Addition, were indicted by a federal grand jury in Springfield last week on a charge of possession of property stolen from an interstate shipment. Arrangement is to be held this week.

They are charged in connection with the theft of 14 color television sets from a truck at the Norfolk & Western Railroad piggy back yards at Cloverleaf on Oct. 30.

Buckingham and two juvenile youths from Cloverleaf admitted the theft in signed statements at the sheriff's office and claimed they obtained Skoklo to set the sets for them. The sets were in St. Louis and Madison, and several were recovered.

Skoklo is under a 30-day suspension from the police department pending a formal hearing before the Madison board of fire and police commissioners at 7 p.m. Dec. 10.

## Solicitor Fired Upon

A solicitor complained to police at 6 p.m. Thursday that someone fired three shots at him in the area of Sura street and Lynch avenue. He was advised against soliciting after dark.

## Parking Lot Accident

Auto driven by Ellis B. Herring, 2501 East 25th street, and Laura M. Fricker, 2915 East 25th street, were involved in an accident at 7:10 p.m. Thursday on the parking lot at the Nameoki Village shopping center.

Those installed as district vice-chairmen for the 1968-69 year were Glen W. Thornburg, manager of the Granite City branch of the East St. Louis & Interurban Water Co.; Raymond Tom Jones, assistant personnel administrator of the Granite City community unit school district; and Edward L. Stone, manager of the A & P supermarket at 20th street and Madison avenue.

William F. Winter, Press-Record associate editor, retiring district chairman, and Stone, retiring district commissioner, were presented plaques by Mathias for their past service.

Mathias also installed 70 district members-at-large. The 70, along with representatives of institutions sponsoring scouting units, form the district committee.

## 2072 Boys in 88 Units

The Uniwah district at present has 2072 members, consisting of boys aged 8-10 in cub packs, boys 11-18 in scout troops and boys 14-18 in ex-

plorer posts.

There are 86 units (packs, troops and posts) in the Quad Cities, it was noted.

Ross V. Randolph, director of the Illinois State Department of Public Safety, was guest speaker, relating anecdotes from his experiences as school teacher, principal, Federal Bureau of Investigation special agent and prison warden.

Role in Character Building Randolph stressed the value of scouting in molding the character of boys and young men, and said instruction of youths and character-building efforts are the most important activities in which adults can participate.

Gifts were presented during the evening to Winter's wife, Lois, Stone's wife, Dorothy, and Mrs. Doris Pekarik, wife of John Pekarik, who headed the committee which arranged the annual meeting.

Many council and district officials in the audience were introduced. Groups presented included unit leaders, unit committeemen, commission-ers, institutional representatives and district and council members.

Talk by New Chairman Toby accepted the district chairmanship in a talk in which he said efforts will be made to motivate scouts to meet the scouting needs of the expanding boy population of the Quad-Cities.

Winter reviewed the past two years and said the new National Boy Scout Law will help enable the district to achieve quality and relevance in its programs as well as meeting numerical goals.

The report of the nominating committee was presented by Fr. Lawrence J. Mattingly, pastor of St. Elizabeth Catholic Church, offered the invocation and benediction. Fr. George Morelock, assistant pastor of the church, sang folk songs and led group singing.

Professional singers introduced were Eugene Coe, council executive, Edwin Menke, district executive, and Wilbur Irelan, assistant district

## Optimist Club Endorses GC School Bond Issue

The Granite City Optimist Club on Thursday afternoon endorsed the Granite City school construction bond issue and education tax proposals to be voted on Saturday, Dec. 7.

A resolution endorsing the two propositions was passed after Optimist members heard a detailed explanation by Billy Terrell, speaking on behalf of proponents of the issues.

In his presentation, Terrell said the \$4,750,000 bond construction proposal would cover construction of a new junior high school, two grade schools and two additions on the Senior high school-Coldridge junior high campus.

"Community School District Nine is faced with a continuing growth problem, not only at the present time, but also for a probable prolonged period to come," the speaker said.

Despite construction of three junior highs, six elementary schools, a cafeteria-classroom addition at the senior high school, plus various additions to established grade school buildings, the district currently is renting four rooms from area churches and has changed attendance boundary lines to equalize loads to use each building more effectively, he noted.

"According to projections by

the Southwestern Illinois Metropolitan Area Planning Commission, the senior high will virtually double in population by 1985. At the present time, we have 2865 students enrolled at the high school."

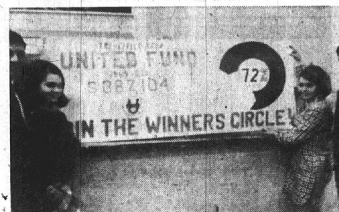

Quoted about the use of present school facilities on a year-around basis, Terrell said the Citizens' Advisory committee presently is studying the possibility of increased use of school buildings and the implications of year-around classes.

Passage of the construction bond issue would add 21 cents per \$100 assessed valuation to current real estate taxes and present extension of the education tax rate to 40 cents per \$100 valuation.

Announcing the endorsement, Optimist President Fred Cunningham urged each member to work for passage of the two proposals. The guest speaker was introduced by Raymond T. Jones.

Gene H. Sternberg, Optimist International president and a member of the Granite City Optimist Club, offered a brief eulogy in memory of Samuel L. Meyer, a past president and long-time club member, who died unexpectedly Nov. 8.

Various activities in the coming month and men's service group in which Mr. Meyer participated were summarized by the Optimist International executive.

## Federal Programs for Hospital, Health Services Uncoordinated

By MORTIMER W. ZIMMERMAN  
President, Illinois Hospital Association

New federal programs relating to health and hospitals are now in a confused, competing, uncoordinated and overlapping state.

This situation is causing negative attitudes among professionals in hospitals across Illinois, and is wasting money and the valuable time of our presently scarce supply of health manpower.

The Department of Health, Education and Welfare is responsible for a nearly total failure in coordinating the programs under its immediate direction and for lack of coordination between that and the Department of Urban Affairs.

Medicare, Medicaid, the Hill-Burton Hospital Construction Program, the Mental Health and Mental Retardation Facilities Act, the Regional Medical Programs (Cancer-Heart-Stroke), Comprehensive Health Planning, the Model Cities Program, Office of Economic Opportunity and others are essentially uncoordinated at the national level.

All of these are feeding into Illinois through many different funnels. In view of the lack of national coordination, it is not much of a surprise to us that there does not appear to be coordination at the state level, either.

We appeal to the new Congress to take measures that can give the purveyors of health services a renewed sense of confidence that our national health programs have a clear sense of purpose and direction.

There has been phenomenal economic growth in the Illinois hospital system over the last several years, and the combined total annual expenditures of Illinois hospitals now exceed \$1 billion.

As a counter-measure to rising hospital costs, we urge close sharing of resources between hospitals.

We are now working on shared computers in Illinois. We are carrying out studies on shared laundries in the Chicago area.

And we have been actively pushing shared professional personnel as well as the merger and sharing of specialized facilities, such as maternity departments.

The pressure is on our hospitals to do more of this. Our hospital associations needs to do a better job of creating a climate where this kind of collaboration is not only possible but encouraged.

We urge more concerted action by hospitals in responding to the demand for better health services for the poor, and closer collaboration between hospitals and the medical profession in meeting new public demands for health care.

## 50 YEARS AGO

NOVEMBER 18, 1918

Despite the fact that peace has been declared, the boys are not yet back from overseas and from training camps and the united war work campaign will continue. Originally set for Nov. 11-18, it was postponed to this week due to the flu epidemic and the two peace celebrations.

Instead of remodeling the Huff Hotel, 19th and C streets, into a YMCA, a "Y" building will be erected on 20th and E streets donated by the Y. The building is to be as soon as enough additional funds are raised.

## 25 YEARS AGO

NOVEMBER 18, 1943

Formal opening of the USO was attended by 200 soldiers and sailors and Mayor John Daskaloff, director, was in charge of the activities, assisted by E. G. Schmitt, USO chairman, and Roy Larsh, YMCA general secretary.

Alderman and Mrs. James Popovsky of Madison had as their guest John Daskaloff of Detroit.

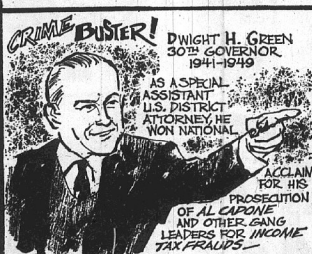

Granite City Rotarians spent a social evening at the home of Mr. and Mrs. Louis Buenger of Cleveland Blvd.

## New City Plan a Guide That Can Help Solve The Squeeze Between Finances and Services

Now that other government agencies have acted favorably on the new Granite City Long-Range Development Plan, the city council would be correct in taking affirmative action on the detailed document and its outline of community goals.

The plan imposes no rigid restrictions on future powers of the city, school district, housing authority and park district.

What it does is relate present issues and trends to their eventual impact. It spotlights conditions likely to face public officials during the next 20 years. And it pinpoints probable steps by the various agencies so that the others will be informed.

As pointed out by the Southwestern Illinois Metropolitan Area Planning Commission, a comprehensive plan cannot solve all problems but it is a useful tool in deciding developmental and monetary policies. Coordination of municipal, housing, recreation and education plans and facilities makes sense because they all affect the same public and because the actions of each governmental unit help shape the needs that have to be dealt with by the other taxing bodies.

The disparity between the cost of desired services and the funds available to finance them is well known. Rapid growth and changing technology add to the burden, as do uncertainty or insufficient land use control.

The new master plan seeks to overcome such headaches and their offspring—deterioration, congestion, economic losses and dissatisfaction. It does not close the door on new construction but attempts to locate it compatibly for the benefit of both old and new owners and tenants.

Urban life is difficult at best. Without planning, it can be impossible.

## Joan of Arc On The Elks Club Steps? Yes, It Happened Here

Tableaux were in vogue during the War to End All Wars. So it is not surprising that on Armistice Day, as the 50 Years Ago column reported, a local woman rode a horse up the Elks Club steps while confederates of the Arc posed by holding a sword aloft between the U.S. and French flags. One can't get much more patriotic than that.

Other ways were used to celebrate peace. Parades formed, everybody cheered everybody else, dishpans were used as noisemakers, and car foundry workers rolled a large railroad

## Work on Present Highway Curves, Hazards Could Save Many Lives Here

By ROBERT E. KRONST, District Engineer  
District Eight, Illinois Division of Highways

The mileage of state-maintained highways excluding Interstate routes within District Eight is 1642.

A majority of these roadways are over 40 years old, and 31% are under 20 feet in width. These old, narrow and congested highways are deficient and need modernization to improve safety and adequately enhance the economy of the area.

The estimate to rehabilitate or construct the 320 miles of state highways designated as primary and urban improvements and supplementary freeways amounts to \$385 million.

Because these improvements represent the most critical ones in the district, we have not included among them the remaining 1322 miles on the present system.

However, under the new reclassification system, and assuming that the state would be responsible for rehabilitating 682 miles of these highways at a cost of \$140 million, then our total needs would amount to approximately \$525 million.

This would account for 1002 miles of the present 1642 miles of state-maintained roads under the new classification system. The remaining 640 miles would be turned over to some county, township or municipality. No cost is included for this returned tabulation.

We have given reservations about the accuracy of the Wilbur Smith highway needs report. The estimate of the purchase price of the highway is \$25 million. We have given reservations about the accuracy of the Wilbur Smith highway needs report. The estimate of the purchase price of the highway is \$25 million.

Since District Eight receives approximately \$10 million annually, \$30 million for the year 1969, it is difficult to see how it can afford to pay for this type of

car wheel from Madison to Granite City and back. Perhaps too eagerly, men bound for Army camps were sent home.

It was a grand occasion, and details of the festivities made interesting reading, then and now. These to master files protected even against a nuclear war, and complete from before the Great Flood of 1903 to the present, the Press-Record is able to bring Quad-City events back to vivid life. Even in the early years of this newspaper, both major and minor occurrences here were being reported in detail.

Perhaps it is a commentary on our own age, but we find the 50 and 25 Years Ago columns increasingly enjoyable. We wonder whether local residents in 1993 or 2018 will find the news of 1968 equally absorbing.

## No Valid Reason for Quad-Cities To Be Ignored in State Patronage

To hear Madison County Democratic Chairman "Buck" Simmons talk, a "depression" has hit the Quad-Cities due to the election of a Republican governor.

Undoubtedly, numerous Democratic patronage jobs will be lost. But we think Quad-City Republican leaders would be delinquent in their duties if they did not fight hard to garner a reasonable share of state jobs for faithful members of their party who live here. Perhaps Governor-elect Thomas is in a position to make his voice heard on this point. House Speaker Smith and State Attorney-elect Griffith, native Granite Cityans, also could speak out.

Quad-Cityans may deserve more appreciation from the Republican party than they have traditionally lent to the GOP. Essentially a Democratic community, we nevertheless lost 11,227 important votes for Sen. Dirksen, 11,297 for Governor-elect Ogilvie, 10,309 for Griffith and 11,184 for Thomas.

Democratic Presidential Nominee Humphrey received only 50% of the votes cast for that office in Granite City, only 45% in Chouteau township and only 43% in Nameoki township. Thomas carried Granite City by over 400 votes. Of the 54 Quad-City precincts, President-elect Nixon won outright in four. Dirksen in 14. Ogilvie in 15. Attorney-General-elect Scott in three and Supreme Court Clerk-elect Taft in 12.

One of the reasons why there have been efforts to reduce patronage and put more state employees under civil service is that abuses occur. In this connection, we urge County GOP Chairman Charles Walters to reconsider his announced intention to imitate some Democrats by collecting a percent-of-salary "log" from appointees.

In view of the economic squeeze on the state government, with anticipated speeding costs far exceeding known revenue, it will also be important for the new Republican administration to get away from the all-too-frequent practice of permitting substantial salaries to be paid from tax funds to party officials and others while requiring them to do little or no work in return.

Only the necessary state jobs should be filled. Political sinecures have become too expensive a burden for taxpayers to bear.

Renew Efforts to Put UF Drive Over the Top

The United Fund drive needs help, judging by the decision to extend the solicitation to Nov. 27.

The industrial firms division is at 94.4% of the goal, Madison division is 91.7%, public service and professional is 85.8%, but the residential and rural division is at 69.5%, commercial 68.8%, industrial employees 51.1% and Venice, 26.9%.

High priority should be given to the UF by all residents, employees, businesses and organizations. Let's give, and give again if necessary, to put the campaign over the top.

the rapid expansion of a supplementary freeway system.

One statistical example that verifies this point is that one-quarter of the accidents occur on rural highways and two-thirds of the deaths are recorded on these same highways.

If we feel that there is a need for an improvement in our highway system, then it is necessary for each of us to accept the obligations of paying for it.

Therefore, my office will keep informed of the recommendations of citizens and the Illinois Highway Study Commission, and will inform area legislators and the public of state highway needs.

We will encourage their support for commission recommendations, which undoubtedly will provide a method to accelerate our highway rebuilding program and to provide adequate funds to accomplish this.

We hope that the people of Illinois through their elected representatives will have the courage to support the commission.

In summing up, District Eight believes that:

1. The majority of state highways are old, deficient and need modernizing.

2. The Wilbur Smith report does not fully define our highway needs.

3. The public is not properly informed of the tremendous need to rebuild the highway system.

4. Emphasis should be placed on rehabilitating the existing system instead of planning major new freeways.

5. The Chicago Motor Club's emergency highway program does nothing for southwestern Illinois.

6. We in the district will support any reasonable program for the elimination of hazardous intersections, widening certain narrow highways, removing sight triangles, flattening sharp curves and constructing missing links of existing major highways.

## 50TH ANNIVERSARY OF NEIGHBORHOOD PLEASED BY CAPTURE OF SUSPECT

To the Editor:

As members of the Gospel Mission, 2014 East 20th street, we thank each of the speakers and everyone who took part in making our 50th anniversary program an event that will be remembered by Mrs. Davis and by all of us for the rest of our lives.

We thank the Press-Record for the nice article about the Mission. We also thank Mayor Partney for coming to the program and presenting Mrs. Davis with a plaque in recognition of her 50 years of work behind the mill.

The Mission people felt very honored by the presence of all the children of the late Mr. and Mrs. Paul Sabo and their families. The Sabo family was one of the first families to attend the Mission 50 years ago.

The floral arrangements sent in honor of the day were very much appreciated.

BABY SITTERS DESERVE AT LEAST AN HOUR TO THE EDITOR:

Why are baby sitters the lowest paid persons? People expect a baby sitter to come into their homes in the middle of the night and expect everything else done.

If they think this is big money! If they can't get at least \$1 an hour, then let the working mothers stay home with their own children. They just won't stand to be underpaid any longer, as we have to make a living too.

If they don't want to pay a fair price, this will keep mothers at home, where they really belong with their children.

UNDERPAID BABY SITTER

NEED CROSSING GUARD AT 3RD, MCCAMBRIDGE TO THE EDITOR:

Two children have been hit on Third and McCambridge. The mayor of Madison had the police helping the kids cross for two days. Now there is a mother helping them; it is the mother of the little girl who got hurt.

She doesn't want what happened to her child to happen to someone else.

I don't think we should be told to make them go to Sixth and McCambridge, where there is a guard. They would have to double-back to go to the junior high.

The mayor wouldn't do it, and neither would the kids. There are a lot of children who cross at Third street. If the city of Madison can't afford a guard, the people of East Madison can't afford the protection of our kids.

## Importance of Police Training Stressed

The importance of law enforcement and cooperation between the citizenry and police officers was stressed today by Mayor Partney in his monthly report to Granite Cityans.

Text of the report follows: "We have just gone through a national election and witnessed many of the candidates running on the law and order platform.

"I feel real proud to be mayor of our City, where we regard law enforcement as a local responsibility. We accept this responsibility and with state aid in the training of our police department everyone can feel free to walk on our streets, safely. Our police department has been up-graded by schooling in general police work.

"We have purchased new automobiles each year for patrolling. We have set up patrol districts for better protection. The effectiveness of a police

department depends in large measure on its relations with the people. The police cannot function effectively in an atmosphere of hostility.

"Where crimes go unreported, witnesses refuse to identify themselves, or to testify in court, and suspects resisting arrest receive the support of by-standers.

"Ineffective police service, in return, denies to the community a climate of law and social order within which liberty can flourish and progress can be made.

"Members of the community must understand the important and demanding role that the police play in a democratic society. Citizens and police officers, alike, must reject the stereotypes that bar understanding and prevent communication.

"Effective dialogue between these groups is essential to the learning process of each.

### Memorial Service Held For Dead K. C. Members

An annual memorial service for 167 deceased members of Tri-City Council 1098 of the Knights of Columbus and their families was held Sunday after the 9:30 a.m. Mass Sunday at St. Joseph's Church.

The principal address was delivered by John Straubinger on "Our Order and Its Dead."

Other participants were Rev. J. Thomas Treese, chaplain; Dr. J. R. Vasileff, master of ceremonies; James DeRuntz; Edward Lenzi Jr., warden; and William Boerckel, chancellor. Prayers were read by Harry Hadley and Dr. Leo Roman. Mrs. Ann Pieper, vocalist, sang "Mother Beloved," accompanied by Mrs. Francis Judd at the organ. Other songs included "America the Beautiful" and "Holy God We Praise Thy Name." Members of the fourth degree assembly, attired in full regalia, concluded with an honor guard.

**Initiation Held**  
Final plans for the service were announced at a council meeting Thursday night when six new members were initiated into the first degree of the order.

They are Joseph Gelsler, Ralph Lickens, Leonard Mikolajczuk, William Connolly, Ray Hadley and Harry Breckner.

The degree team from Edwardsville conducted the ceremony. Included were Joseph Hentz as grand knight, Ollie Jacobson as deputy grand knight and Roy Haven as warden. Boerckel of the local council

"Communication, alone, will not suffice. Positive programs are needed to train police officers in human relations, skills, to create opportunities for police and community to interact in non-punitive situations, to expand citizen participation in the maintenance of social order and to reduce the severe burden on police created by family disputes.

"A city is many things—homes, offices, schools, factories, but basically the people are the city. The problems of any city are the problems of its people, and the hopes of any city lie in the spirit of the people. This is the reason our city is such a fine place to work, live and worship in.

"We welcome all citizens to attend council meetings on the first, third, and fourth Mondays of each month starting at 8 p.m."

## Adult Education Workshop At Venice Technical Center

Coordination between state agencies and administrators of adult education and vocational training, correlation of future job market needs and curriculum, and state and federally-sponsored programs available to adult education were explored Friday at an all-day workshop held at the Venice-Technical Center.

Approximately 60 administrators, staff members and teachers from the Venice-Technical Center and the East St. Louis Adult Education School, who participated in the workshop, heard a series of speakers from public instruction, health, and welfare and Illinois State Employment Service.

Others addressing the workshop participants were county school officials and representatives of industrial groups, junior college districts and anti-poverty programs.

Curriculum, Coordination Duane Rankin, Venice-Technical Center director, said the seminar permitted teachers and administrative personnel an opportunity to better understand what programs are available to achieve a more effective and comprehensive adult education curriculum and specifically to help improve coordination between local, state and federal programs.

The teachers also viewed a film, "To Touch a Child," distributed by the Mott Foundation. The movie described the full scope of an "open door" policy now in operation in Flint, Mich., school system, where buildings are utilized on a seven-day per-week, year-round basis for comprehensive community-wide programs.

Among the speakers Friday were Mrs. Lois Weeks, 129 E. Chain of Rocks road 831-1493.
